LOWE IS BACK WITH THE NEW SYNTH-DISCO ALBUM *EVOLVER*

The Swedish electronic pop-noir trio LOWE is back with their third album **Evolver**. Their latest single **Breathe In Breathe Out** went straight to #1 on **iTunes Alternative Charts** in Sweden. The new album **Evolver** will be released on September 13th.

In 2004 Swedish synth band LOWE released their debut album *Tenant*. It didn't take long before they gained international recognition through nominations for **Best song, Best album** and took home the prize as **Best newcomer** at the **Scandinavian Alternative Music Awards**. They've made several tours that led to huge success outside Sweden, especially in Eastern Europe, and last year LOWE toured for the first time in USA and Canada. LOWE has been compared to artists such as The Cure, Kent, New Order and Visage, who they've also played with in London. In October LOWE is going on their second US-tour to promote the new album. LOWE is currently based in Stockholm and Berlin.

- **Evolver** is our darkest album so far, says Leo Josefsson, lead singer in LOWE.
- A mixture of mono-synths and disco balls, bass player Rickard Gunnarsson explains.
- It was time to discover new territories. We've been experimenting a lot with the sound and the songs even though **Evolver** is our most homo-genic album to date, says keyboardist Tobias Ersson.
