**Artist:** Lowe**Title:** Kino International**Format:** CD-album**Catalogue no:** MHCD 05**Release:** 2008-06-09**Lowe's long awaited new album *Kino International* is finally here!**

*– The songs are more upbeat and varied, and will attract a whole new audience. But we still sound like "Lowe," and old fans will love it as well, says lead vocalist Leo.*

Lowe's music can be described as "pop noir", a unique sound somewhere in-between pop, electro and indie.

*– "Kino International" travels through heartfelt bombastic landscapes, and it oozes sex, death and decadence, adds bass player Rickard.*

The band has had tremendous success in Eastern Europe, with tours and several performances on TV-shows for over 100 million viewers! The debut album **Tenant** earned them the prize for **Best Newcomer** and nominations for **Best Album** and **Best Song** at **Scandinavian Alternative Music Awards**.
